

SPONSORSHIP DOSSIER

MORE THAN A COMPETITION

Formula Student is the most important motorsport student competition around the world. It's backed by known engineers and drivers such as David Coulthard, and very important industries like Bosch, Land Rover, Jaguar or Mercedes.

It helps students to innovate and learn about the motorsport world competing in highly renowned tracks of the motoring outlook.

UJI MOTORSPORT

First, we're a team, then, competitors

UJIMotorsport is a group of Jaume I University students who have undertaken the project of design and build a car to compete with it around Europe, and at the same time, internationally.

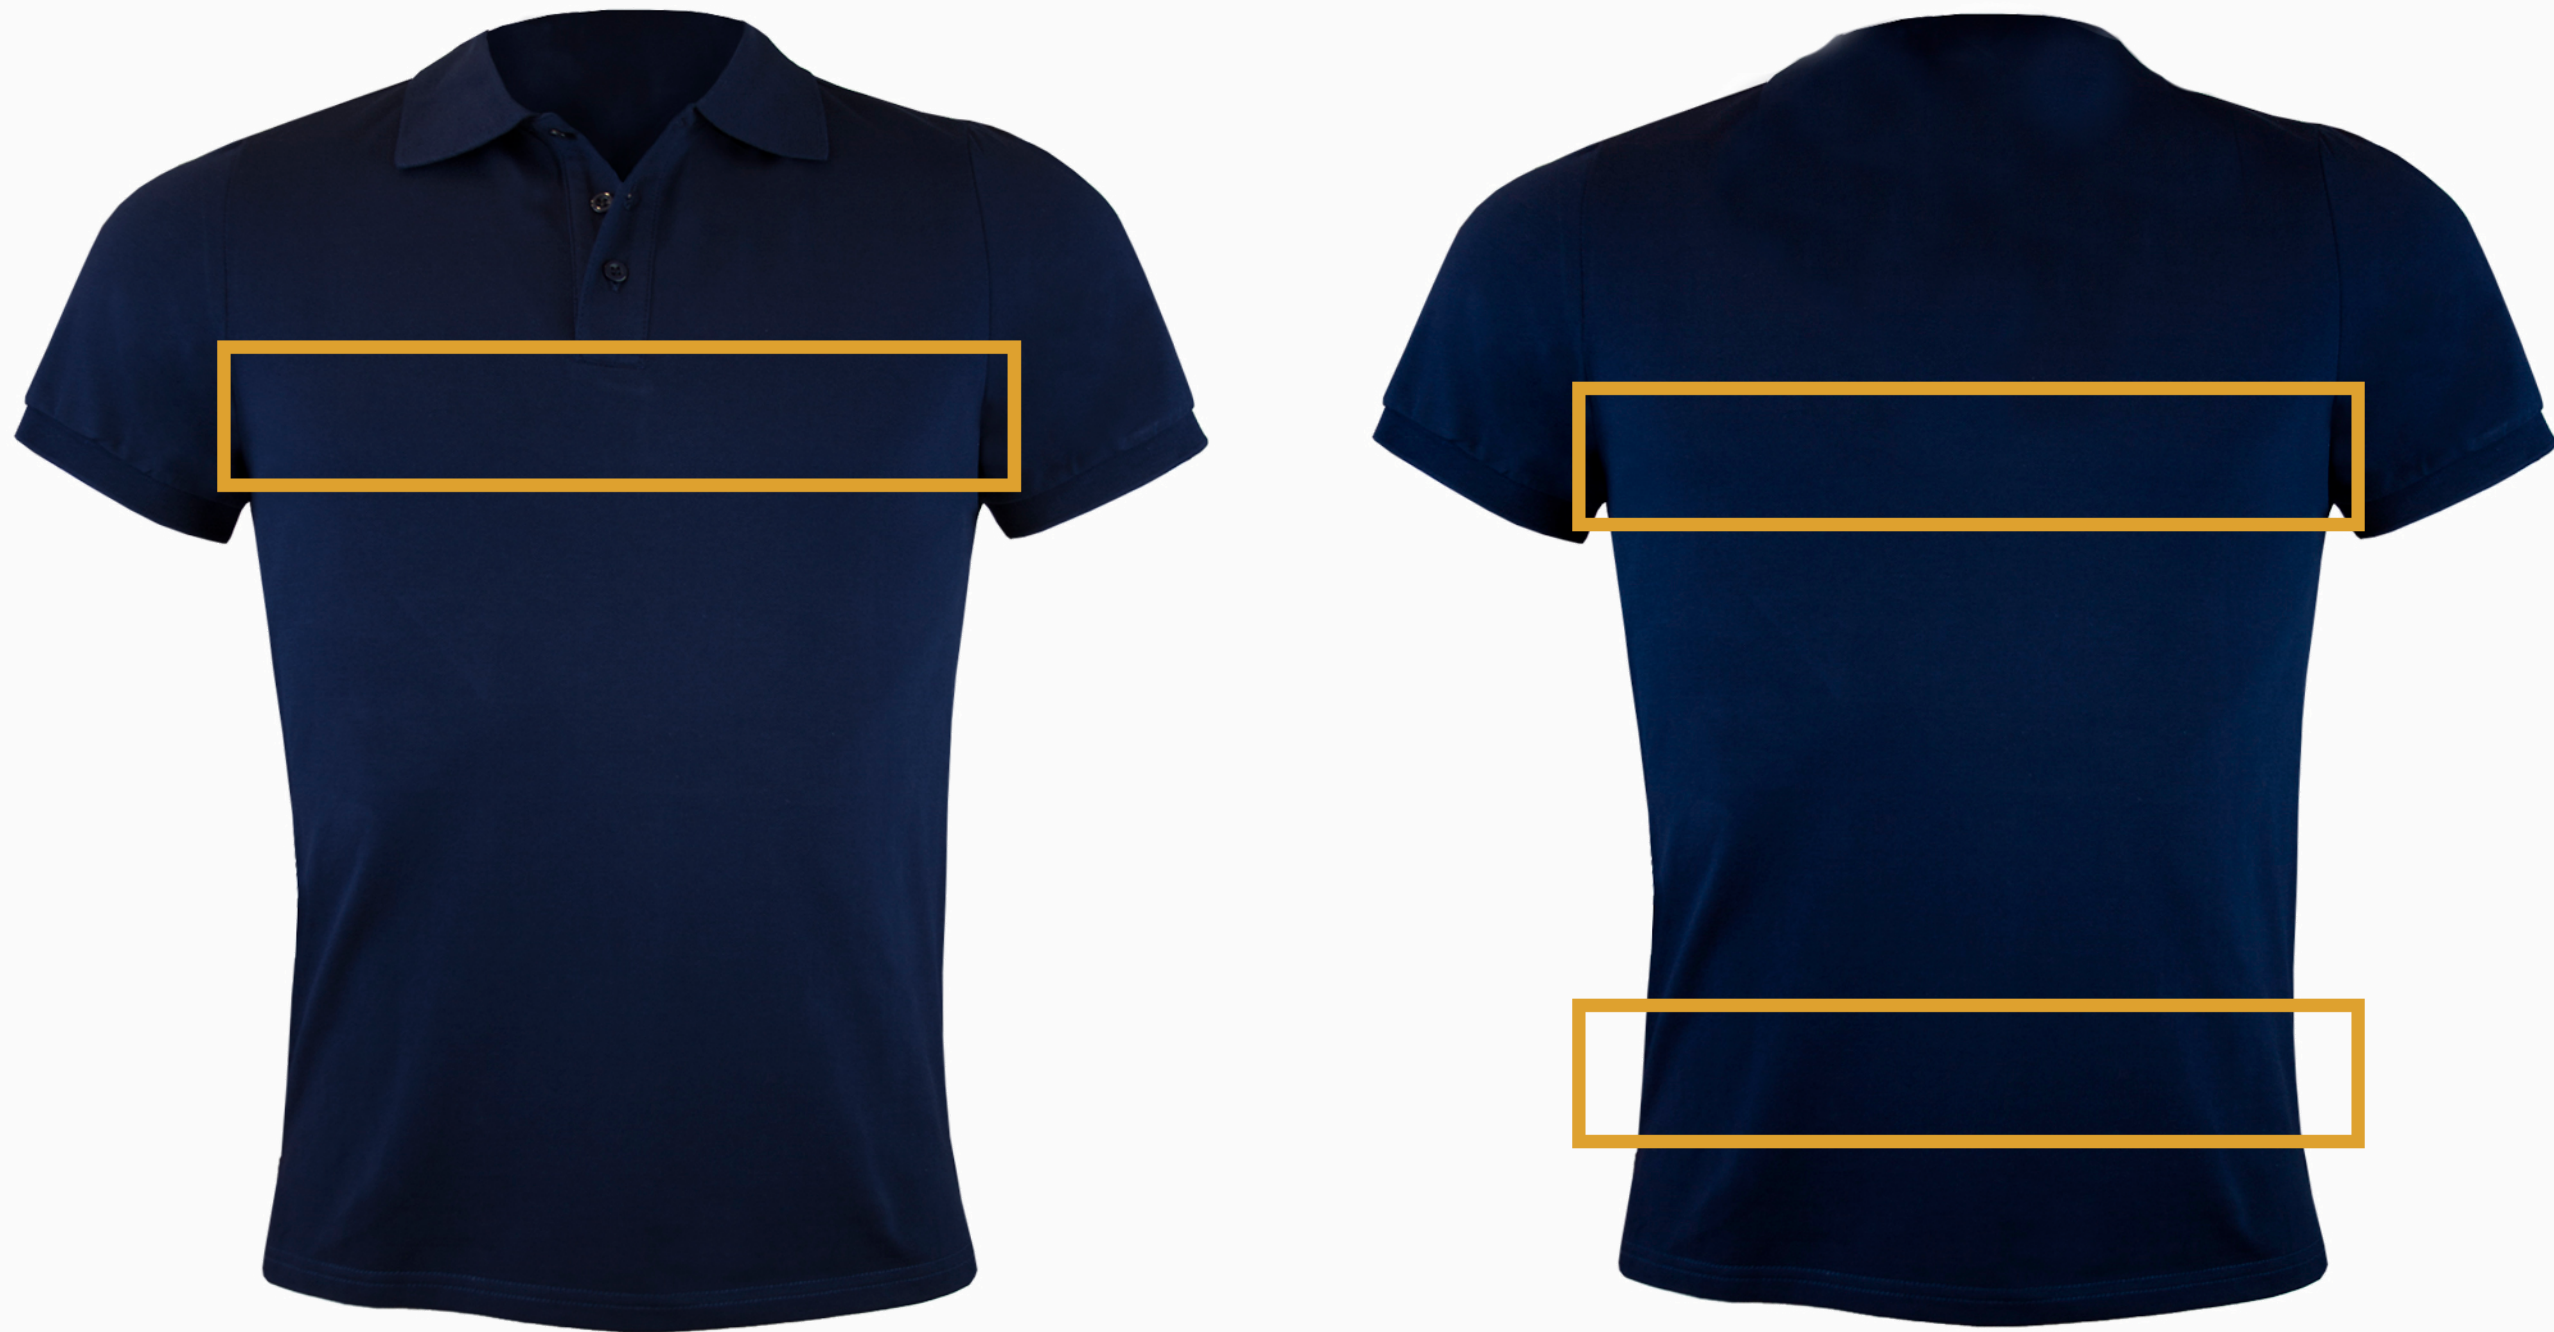

Our main purpose is to put into practice knowledges which we have been learning during the first years in the university creating each year one totally new vehicle, without the possibility of use the one which we have modeled years before .

Nonetheless, as a team, we want to be a known project in our country, and, at the same time, abroad; so, It could help us to achieve the job which each one of us has been dreaming for years.
